

Jason Wing Bio

Born and raised in Indiana, Jason Wing attended pharmacy school at Purdue University. He completed his PGY1 acute care residency at UC San Diego Health and PGY2 oncology residency at OHSU Health. He is now a clinical oncology pharmacist that works both in the inpatient and ambulatory settings, focusing on the treatment of solid tumor patients. On top of his clinical responsibilities, he precepts students and residents on their oncology rotations and research projects, oversees chemotherapy infusion plan development for prostate, testicular, and head and neck cancer as a Via oncology disease state lead, serves as a member of the research council at OHSU Health and BCOP Oversight Committee for HOPA, and manages the newly implemented pharmacist managed IVIG protocol at OHSU Health.
