#	RESPONSES	DATE
1	I anticipate any funding for educational meetings likely will not be available from my employer for the 2020-2021 year.	5/4/2020 9:53 PM
2	all of my answers about future attendance are predicated on the virus prevalence, testing availability, ability to maintain social distancing in the meeting, etc. I hate to miss seeing my colleagues and friends! But probably safer at this point to plan virtual for 2020. Thank you!	5/4/2020 5:12 PM
3	I would feel comfortable in a meeting provided there is adequate social distancing. This still may be an issue.	5/4/2020 10:07 AM
4	At this time, I am ambivalent about attending anything in person as we just don't know how the virus will be affecting us in the future. I know viruses typically diminish in summer, but it is too early to tell. I know this makes it hard for the board to decide anything and I Thank You for trying to make decisions regarding out meetings.	5/4/2020 7:19 AM
5	It's difficult to say if I will be granted time off for the seminar due to time off needing to be scheduled in advance. Also, I'm concerned time off during the week may be denied due to work constraints as things are rescheduled at work as some things have been delayed due to Covid -19 concerns.	5/3/2020 9:59 PM
6	I plan to participate in live-activities when it is safe, assuming that social distancing would be honored in a classroom setting. I don't think switching the entire Annual Seminar to an online format would be a good idea. WSPA plans to do this for their June meeting, and I have no interest in participating online. One of the most enjoyable aspects of AS is networking, and this isn't possible online in the same way. I look at a computer all day at work, and don't really want to do a weekend meeting this way. I would however consider participating in an OSHP sponsored online CE activity that is an hour long (separate from AS20). If the AS20 meeting does get canceled, I might suggest the Past Presidents Committee consider meeting virtually, if there is pressing business.	5/2/2020 4:21 PM
7	I believe it is way too early to ask the questions you did (3 & 4 in particular) about in-person attendance. How can we even consider this for September or November? There is not enough info. This is my biggest frustration with society in general around the pandemic; and as health care professionals, we should know better!	5/2/2020 3:31 PM
8	Until next year, I'm leary of conferences. I would appreciated webinars	5/2/2020 11:13 AM
9	I would cancel all in person events for a couple years and see how the Covid pans out.	5/2/2020 11:10 AM
10	A sure yes or no to attending in-person meetings is a big unknown at this time. Even if "legally allowed" does that mean it is safe? Honestly, until a vaccine comes out I think things are going to have to remain pretty distanced.	5/2/2020 9:02 AM
11	I would like to see more CEs in person when it is safe to do so. It seemed like there wasn't that many the past 2 years.	5/2/2020 12:30 AM
12	given the risk for a second wave/surge it seems imprudent to do in-person meetings this year	5/1/2020 8:29 PM
13	I have always been very impressed with the organization and quality of every aspect of the OSHP meetings (CE, venue, meals/breaks, networking opportunities, etc). Since becoming a member about 15 years ago, I've attended every Fall Seminar & Annual Meeting possible. I benefited greatly from the education & networking made available at these meetings and would love to see them continue in much the same way if possible. I have received financial support from employers for most of the meetings I attended, but also paid my own way for many of the meetings. I will attend future meetings when scheduling allows and will pay my way if employer funding is not available. Thanks very much to all of the OSHP officers and members who have worked so hard and dedicated themselves to providing for these meetings!	5/1/2020 7:27 PM
14	If a family member was not "at risk", I would be more open to attending a live seminar. Much is dependent on how this pandemic trends in the next few weeks/months.	5/1/2020 5:24 PM
15	Virtual networking opportunities would be great so we don't lose out on the social connections that we get through OSHP!	5/1/2020 2:44 PM
16	would attend webinars if ACPE CE credit offered, likely not if only OR/WA CE. moving fall conf to January is too close to april annual meeting, if both in person	5/1/2020 2:41 PM

## OSHP Member Survey April 2020

17	Thank you for being flexible and creative about how to manage programming for members! I was really looking forward to Annual Seminar, and I am mourning the loss of my pharmacy family reunion this year.	5/1/2020 2:33 PM
18	I would be comfortable attending in person events, but really feel like so much is changing day by day, it will depend on the situation in the fall. If things are better, then I'm all for it!	5/1/2020 1:30 PM
19	For 2020 we still have remaining funds for some attendance but reimbursement is due 5/15 for any registrations. It is unknown what the remainder of 2020 or 2021 will hold. We are still having meetings at work, limited to essential personnel and masking. I feel comfortable attending an in-person event in the Fall as long as we don't see a big surge between now and then. I would prefer in-person and am comfortable attending if allowed but think webinar is reasonable given the situation.	5/1/2020 1:17 PM
20	I really appreciate the efforts of this organization working with the BOP and the Oregon legislature to represent the needs of pharmacists. I think that we all need to be involved and advocating for our profession now more than ever. Thank you	5/1/2020 12:43 PM
21	Memberships are not going to be renewed for me until I have a better sense of job security	5/1/2020 12:38 PM
22	I hesitate to plan for in-person attendance in 2020 given unknowns around recurrent surges. Too many unknowns still at this time.	5/1/2020 12:37 PM
