12.3 - FOSHP PROGRAM

12.3.1 - PURPOSE

The Fellowship of the Oregon Society of Health-System Pharmacists (FOSHP) Recognition Program serves the following purposes:

1. To foster and reward excellence in hospital and health-system pharmacy.
2. To grant recognition and promote public awareness of pharmacists who have distinguished themselves within OSHP.

12.3.2 - AUTHORITY

The FOSHP Recognition Program shall be conducted under the general authority of the Society's Board of Directors. The Board shall approve all regulations pertaining to the operation of the Recognition Program. OSHP may award Fellow status to qualified individuals on an annual basis at the Fall Seminar.

12.3.3 - GOVERNANCE

FOSHP Recognition Committee: *Function and Responsibilities*

The Program shall be administered by the FOSHP Recognition Committee, which shall have the following specific responsibilities, with respect to the FOSHP Program:

- To review and approve recognition eligibility criteria and, in general, to provide quality assurance for the Program;
- To recommend for approval applications for recognition of individuals to the Board of Directors;
- To recommend to the Board of Directors any future changes in this Policy.

12.3.4 – CRITERIA FOR RECOGNITION

9.3.4.1 - Minimum Eligibility Requirements for Application

1. Current member in OSHP and sustained membership in OSHP for at least seven (7) years (does not have to be consecutive years); and
2. A record of active participation and service to OSHP activities at the state or regional level, or nationally, through ASHP, for at least five (5) years (does not have to be consecutive years); and
3. Demonstration of sustained professional/practice commitment or contributions to excellence in health-system pharmacy for at least ten (10) years following pharmacy licensure. For the purposes of this Program, ten years starts from the time of licensure and includes the residency period; and
4. Not a current elected officer or employee of OSHP, or a member of the FOSHP Recognition Committee.

Interpretation

The term “candidate”, for purposes of this Program, includes pharmacy professionals (pharmacists) who are members of OSHP as defined in the governing documents.

The candidate must support the profession as evidenced by a record of consistent and active involvement and leadership in OSHP. In addition, involvement in other voluntary professional organizations may be considered. Some examples of activities in which a candidate may have participated are as follows:

- a. Served as an elected official or for the Board of Directors of OSHP; or
- b. Served as a member of a commission, committee, council, task force, or ad hoc group established by a national, state, regional or local pharmacy association (e.g. ASHP delegate); or
- c. Served as a reviewer, editorial board member, or editor for a national, professional peer-reviewed journal; or
- d. Served as member of a pharmacy association policy recommending body; or

- e. Any additional leadership activities with other professional organizations that have a broad impact on health-system pharmacy.

It is expected that the level of demonstrated contribution to the profession reflect the candidate's long-standing commitment to excellence in health-system pharmacy. The candidate must provide sufficient documentation that a level of excellence has been achieved through sustained contributions to the advancement of health-system practice. The following may be submitted as evidence that the candidate has a record of contributions to excellence in health-system pharmacy:

- a. Development or implementation of academic, institutional, or pharmacoeconomic services or programs; or
- b. System committee service that resulted in an improved level of practice; or
- c. Fulfillment of formalized leadership roles in health-system organizations; or
- d. Development of new or improved practice or patient education methods and models

Since it is recognized that these factors are not the exclusive basis upon which to determine "excellence in health-system pharmacy", other evidence that addresses this criterion will be considered.

12.3.4.2 - Additional Eligibility Requirements for Application

Other criteria will be considered in determining eligibility for Fellowship. These are not mutually exclusive of the above minimum criteria. Candidates are accepted for Fellowship based upon demonstration of meeting the minimum eligibility requirements and a combination of the following additional criteria:

- 1. Contribution to the total body of knowledge in hospital and health-system pharmacy through educating practitioners, students, administrators, and/or the public.

Interpretation

The following may be submitted as evidence that the candidate has a record of contributing to the total body of knowledge in pharmacy practice.

- a. Publication of scientific or professional papers on relevant topics of pharmacy in peer-reviewed journals (coauthor is acceptable); or
- b. Publication of a textbook or several chapters in a textbook(s) on some relevant aspect of pharmacy; or
- c. Educational program or poster presentation at OSHP's State or Chapter meetings, or other state and national professional meetings; or

- d. Publication in the OSHP Newsletter (excludes articles related to requirements of office, or organizational news); or
- e. Demonstration of active involvement in APPE and IPPE training or PGY1/PGY2 resident training; or
- f. Preceptorship at student-run events; or
- g. Provision of education at schools of pharmacy or technician training.
- h. In-service presentations or an institution's internal publications alone are NOT considered as meeting this criterion.

2. The candidate is highly regarded by students, peers, other health care professionals, and/or members of the public.

Interpretation

The following may be submitted as evidence of peer recognition.

- a. Awardee of special recognition and/or honors, particularly within OSHP; or
- b. Other contributions and service to the profession and public not otherwise categorized; or
- c. Consideration of contributing references of support for confirmation of Fellow status.

Of vital importance will be the Candidate's ability to communicate clearly in writing:

- 1. Active participation in OSHP and significant contributions to health-system pharmacy;
- 2. Why the Candidate believes that a level of practice excellence has been achieved; and
- 3. The quality of the Candidate's educational efforts.

In addition, each candidate must provide at least three colleagues (practitioners, administrators, or academicians) who may attest to the applicant's professionalism and contributions as a practitioner by addressing these two points. To this end, the candidate's writing, and colleagues' reference on his or her behalf, must not focus on one accomplishment only but, rather, must personally assess the extent to which the applicant's overall contributions have made a positive impact on pharmacy practice.

12.3.5 – DESIGNATION OF FOSHP RECOGNITION STATUS

A candidate achieving recognition shall be designated a "Fellow of the Oregon Society of Health-System Pharmacists" (FOSHP). Candidates achieving OSHP Fellow status shall be recognized at a ceremony, conducted on their behalf, during the OSHP Fall Seminar. Furthermore, pins recognizing FOSHP status shall be provided for Fellows at Society meetings.

 - 3. The quality of the candidate's educational efforts.
